

## Experts in the Area of Fundraising

The current health crisis has impacted the funding capacity and sources of income of many NSO/NSAs in the European Scout Region. With an overall aim to continue supporting NSO/NSAs in strengthening their fundraising capacity and diversifying their income, the European Scout Region is looking for two experts ready to support upcoming service requests.

We are looking for experts who have experience and expertise in one of the following areas of income diversification and fundraising:

- Corporate partnerships
- Campaigns for individual donations
- Major donor management
- Business development and income generating activities

The experts should be able to deliver support in English. The services requested can be of different nature (training, review of strategy, ...) based on the NSOs' needs and requested via the [WOSM service platform](#).

The newly recruited experts will be on-boarded within the WOSM Consultants framework and will be trained online on WOSM essentials and consultancy skills with an opportunity to collaborate (in pairs) with WOSM's current consultants over specific NSO/NSAs requests.
